Welcome..

2023/24 President Andrew Broadley

As the nights draw in, it is time to reflect on the Spring and Summer past. The conference in May ran as smoothly as we could hope for and Marteye certainly added to the atmosphere of the sale. A big thank you to all vendors and purchasers for making it a success. Also, many thanks to the farm hosts and volunteers from the Derbyshire club.

June started with scorching temperatures and a hot trade at the Brieryside sale, and with almost 80% of animals sold going into commercial herds, emphasised once again why as a Society we need to be reaching out to these enterprises.

This sale was swiftly followed by John Watson (New Close) and family's Centenary celebrations, with members and friends gathering for sensational views, stockjudging classes, junior handling, and a look around the herd. From here it was on to Troutbeck and the first Society judging seminar where the Mattinson family gave all judges plenty of head and chin scratching as they were asked to place two very close, high-quality classes.

The show season saw some very well represented Ayrshire classes all over the UK with quality stock on view everywhere, helping to promote the breed to all who looked.

The second judging day was held in Kent by kind permission of the Howie family. The drizzly conditions certainly didn't dampen attendee's spirits as the two classes provoked some very interesting debate.

UKDD again had good numbers forward for our national show and the Young Breeders team lived up to previous years standards by turning out quality animals, whilst representing themselves and the Society in the professional manner to which we have become accustomed.

The ABAB calf show has just taken place and again young members were to the fore as over 50 calves were brought forward.

Claire left the Society on the 6th October after nine years of dedicated service and I would just like to thank her for her hard work and enthusiasm. Measures have been taken to cover her work and there is more on this in the office report. Whilst there is never a good time to lose a member of staff, perhaps now gives us a chance to take a look at the Society and restructure to give us the best chance going forwards.

to the 2023 Winter edition of the Ayrshire Journal.

HQ CATCH-UP

General Manager Claire Kimm updates membership on the activities at Head Quarters

With reducing the journals to two per year there has been lots of events since the last journal was published. The Derbyshire conference was enjoyed by many, Andrew and his team did a great job in securing lots of fantastic sponsors who we will hopefully continue to work with for the World Conference. The auction

raised a wonderful £800 towards World Conference funds and we are grateful to members that consigned very appealing offerings.

Presidents and council met at the AGM with the following being appointed on the 2023/2024 committees.

Council

- Region 2 Vacancy
- Region 4 Vacancy

- Andrew Broadley (President) (in attendance)
- Colin Christophers
- John Adamson
- Scott Taylor
- John Suffern
- World Federation Representatives:
- Colin Christophers
- Steve Bailey
- Arthur Lawrie

Council nominations for 2024/2025 will be posted out in the new year along with annual subscription invoices.

Preparation is under way for the Young Breeders weekend which will be held in the Isle of Man from 14th – 17th August 2024 and we are working closely with our contacts there to secure a travel and hotel package. Please keep in touch with the website and social media for the further details when they are confirmed.

Council met for an extraordinary meeting in October to discuss the future direction of the Society and agreed Pedigree Livestock Services were to cover the accounts and Duncan Hunter was to be asked to help Amy cover the general running of the society. These are both temporary until the turn of the year when it will be reviewed again. For any account or invoice queries, please Julie or Deborah on 01768 870522. Please still direct all general enquiries to Amy using the normal office number.

The Council also realised the need to raise the price to members for both membership and registration fees. As from 1st January 2024, the new agreed prices will be as follows:

Membership £70.00 + VAT per annum

Registrations for females: 0 - 3 months of age = £12.00 + VAT. Over 3 months of age = £25.00 + VAT.

In July staff member Amy and young breeder representative Jake tied the knot with celebrations taking place at Amy's family farm Plasketlands.

Finally, as this will be my last journal report I would like to thank the Society for all the opportunities my role has given me over the last nine years. I have met lots of brilliant people, have great memories and would like to wish the Society and members the very best of luck for the future.

Breed Heritage Report

Duncan Hunter, Breed Heritage Programme Manager.

Some of the recent questions directed to the Breed Heritage committee have made us aware that some members are still unsure of the programme and how it operates. So, we have listed those questions and a response to all breeders and enthusiasts of the Ayrshire breed.

What is the aim of the Breed Heritage programme?

To help to protect and enhance the Ayrshire breed in Great Britain and Ireland and work with Ayrshire breeders to make informed breeding decisions.

What does the Breed Heritage Committee do?

1. Assist breeders to help make informed decisions on the breeding of their best families.
2. Record sire suggestions and pregnancies once confirmed.
3. Add female progeny to the programme and encourage their breeders to work with the committee.
4. Encourage male progeny to be registered early for Cattle Services Ayr to assess their possible potential at the earliest opportunity.
5. Identify UK and international bloodlines of outcross blood with benefits for production, type and health traits whilst maintaining Ayrshire breed character.
6. Identify UK families with potential to enhance the breeds future.

What other projects do Breed Heritage work on?

Any relevant work to help the breeds progress and development. Some of our recent work has been to conduct a genomic case file on several females, who when genomically tested, saw their original PTAs completely decimated! These females are now milking, and we are recording their genomic evaluations after each proof run. All of them have seen a dramatic increase from their original genomic predictions to the point that they are heading towards, or in some cases exceeding their original PTAs. This project will be expanded to more animals for us

to gain more accurate assumptions as to the information of data provided for our breed.

Important to note: Please understand that genomic predictions on data is only relevant to the transmission to the next generation and not to the animal itself.

What can breeders do to assist in this crucial programme?

Communication - Positivity - Drive – Development - Future

These are all words to describe what all breeders can do to help. Without these we will struggle to function. When we suggest a breeding, we have all the data available to us to attempt to make informed decisions. In an ideal world, we would prefer to visually inspect the animals, but budgets don't allow that luxury so we do rely on breeders to inform us of any inconsistencies we should be aware of. Any videos/photos of animals on the programme are always very welcome and can be sent to the Breed Heritage manager.

Who are the Breed Heritage Committee?

Ayrshire breeders with ambition to help achieve the best possible future for the Ayrshire breed and are willing to give their time and knowledge to the cause. They are Michael Broadley, Colin Christophers, John Adamson, Scott Taylor and Sam Wake with Duncan Hunter managing and actioning the programmes work.

What would the committee like to express to breeders?

We really want to encourage breeders to work with the committee and offer suggestions of cow families and individuals who may benefit the breeds future, as already, many do. We only have limited time on this project, so responses and information are vital for our progress. This project should involve everyone with the breeds future at heart!

Contact Us

Please, if you have any information relevant to the project, use the contact details below. We will always be happy to talk to you.

Duncan Hunter (Breed Heritage Manager).

CATTLE SERVICES NEWS

Cattle Services Sales & Marketing Manager

Sam Wake

This year has been another challenging year for UK dairy farmers, something that we seem to be saying all too often. Despite this, it has been very promising

UK genetics getting out onto the Worldwide stage.

Sales at home continue to be strong with almost 75% of sales being sexed.

to see such great results from breeders

who have been using Cattle Services Sires, both in the heifer pens, the milking parlours and the show rings.

Daughters of Beechmount Magic Mike, Cuthill Towers Calcutta and Royal Flush Sea King are really impressing in the heifer pens and in the milking groups the Biddesden Hector, Pam Ayrs Hawaiian and Harperfield Wind in the Willows daughters are really standing out. At the National Ayrshire Show at UK Dairy Day, the Reserve Champion heifer went to a daughter of Heydale White Willow, and there were class wins for daughters of Pam Ayrs Hawaiian, Brieryside Magic and Hunnington Famous. At the South West Dairy Show, a daughter of Cuthill Towers Madison took the Championship.

Onto the National calf show and over three quarters of all the calves shown were sired by Cattle Services sires. A Brieryside Hail daughter took Champion and then went on to be named premier sire. Hunnington Fantasy sired his first National Calf class winner and there were also some great calves at the show from Beechmount Magic Mike, Grove Razell and Willhome Challenger.

Sales for 2023 remain strong with a fantastic year for exports. Straws have been shipped to Australia, New Zealand, Canada, America, South Africa and Finland and it is great to see

Longwood Willow Sandy Rose

Brieryside Magic Patsy

Willowfields Famous Clover

Rosehill Madison Jelly

Remember that Cattle Services carries the following bulls in Ultra Plus High Purity, Alkmonton Stardust, Ardmore Jeepers Creepers, Beechmount Magic Mike, Beeline Ladys Man, Cuthill Towers Calcutta, Grove Razell, Harperfield Wind in the Willows, Hunnington Fantasy, Plaskett Bruno, Royal Flush Sea King, Troutbeck Daring with Hilltown Yukon Delta and Ravenhill Revolver soon to be available this winter. Alongside these great young sires there are many proven sires available in conventional straws, if you would like a list of these then please get in touch.

At Cattle Services, our aim is to offer 4-6 new bulls a year, unfortunately due to failed health tests and a decline in Male registrations, we only have three for this year. To counter this we breed certain cows to conventional semen (although this usually results in a heifer calf!) to hopefully produce some bull calves. Remember if you have that exciting cow then please let me or any of the directors know and we can offer suggestions on what to breed her to.

Finally, the directors and I would like to thank Claire for all her work and help over the years and we wish her the best of luck in her new job.

Please keep up to date with everything Cattle Services by following the Facebook page and checking the website.

- Soil health

CONFERENCE

The annual conference and AGM this year took us to the picturesque Palace Hotel in Buxton, Derbyshire. Monday morning saw the presidents and council meet before the Annual AGM and awards giving.

Following the finance and president's reports, the officers for the next term were elected as follows:

President – Andrew Broadley (Whitecroft)
Vice President – John Watson (High Mark)
Junior Vice President – Rodney Armstrong (Plaskett)
Past President – Steve Bailey (Beeline)
Honorary Life President – John Hunter (Ardmore)

Andrew's term as president is the last extended term following the Covid-19 pandemic and will he remain in his role until the next AGM where the usual one-year term will resume. Following the AGM, the 2023 awards were given out which included the Photographic Competition awards, LP 100's and Star Brood cow awards, before the final award was given. The Haresfoot Vase is awarded every year to the Premier Breeder Exhibitor that has gained the most points across the qualifying shows during the season. The award was presented to A & S Lawrie of Cuthill Towers for the most points during 2022.

20 CONFERENCE

After lunch at the hotel, the first herd visit took us to Chris Adams' Tessvale herd. Chris and his family have farmed a closed herd run over 280 acres where they breed and rear all their own replacements. Delegates were interested to hear how Chris has been genomic testing batches of youngstock. For those not visiting the farm, craft activities were held at the hotel with Lou from Hook or by Crooks where the ladies showed their hands to the very fiddly, needle felting.

The evening began with a very interesting reception with the main conference sponsors, Aled and Zoe from Pruex, who explained how they use Bacillus based bacteria in many different systems to reduce the antibiotic use on farms. After dinner, the entertainment was with Buxton's Greatest Quiz Master, Paul Jenner.

On Tuesday morning, the bus took a short trip to Heydale where the Berresford family have farmed since the 1950's in the idyllic Derbyshire Peak District hills. Delegates enjoyed roaming the fields, admiring Peter's breeding before heading to David and Charlotte Gibson's Beltonville Cow shed for an impressive lunch. With full bellies, the next stop of the day was to Whitcroft. After a welcome and introduction from Michael, delegates were taken to the field where the cows had been split into two groups, Cattle Services sires and then other sires. It was soon time for milking where we were able to watch the impressive Cynthia system in action that sprays good bacteria on the cows udders and legs as they leave the parlour which has helped to massively reduce the clinical mastitis and digital dermatitis in the herd. The alternative programme took the ladies for a very informative and interesting visit and tour of the Buxton Opera house before taking a trip underground to Pooles Cavern to explore the vast limestone caverns.

The evening was introduced by Rob from AHV International who gave an informative talk on how they use innovations, tools, and solutions in Animal Health to help farmers understand their herd health and to

23 RENCE

optimize health and performance within their herds. After dinner, delegates and friends danced the night away to the fantastic Skylight band.

The final day was another packed day for delegates. The first farm visit took us for a very relaxed visit to Bigginvale, where again the cows had been split to showcase those sired by Cattle Services sires, and the breeding was a credit to the Adams family with numerous bloodlines and families standing out in the glorious summer sun.

The final visit was to Alkington where we were welcomed by Richard Harris before delegates tucked into an amazing hog roast lunch. The Harris family decided to diversify in 2020 by opening their own bottling plant and are now processing around 15,000lts of milk per week and delivering directly to the local area. The alternative programme had a more relaxed approach with some free time in the morning to explore Bakewell before a tour of historic Tissington Hall.

That evening we welcomed the delegates, hosts, sponsors, and friends for the final dinner before the Conference sale began. Guest auctioneer, Mark Davis from Kivells was invited to conduct the sale. For the first time, the sale was streamed and available to bid through MartEye, which opened the bidding to those unable to attend and was a real success. Andrew welcomed the second guest auctioneer of the evening, Charles Hanson, to sell the lots forward to raise money for the 2024 World Conference. A full report follows.

A great conference was had by all whom attended with lots of great weather, superb hospitality and a fantastic itinerary of herd and alternative visits with lots of entertainment along the way. The society wish to thank the Broadley family, Derbyshire club and sponsors who kindly gave their time and financial support.

HILLTOWN YUKON DELTA

#1 TYPE GENOMIC SIRE

**FAMILY
FOCUS**

Hilltown Yukon Delta is the next sire to be released from Cattle Services. He is the result of a Breed Heritage mating, Yukon Delta was born at Hilltown last year. His story started when the committee decided to use La Croisee Yukon on Hilltown Violet 476, with Violet due to

be breed unfortunately the straws had not arrived at Hilltown, but we were able to call in a favour in order to ensure the semen arrived on time! The resulting calf Hilltown Yukon Delta was born at the end of February 2022. Now on collection at UK Sire services in Devon, Yukon Delta is currently the number 1 type merit genomic sire available.

The story of the Violet family at Hilltown started nearly 70 years ago when in early 1957 they bought four Ayrshire heifer calves from a Mr Muir at Garliford Farm which was two miles west of Hilltown. Once these calves were taken to Hilltown, they shortly received a call from Mr Muir to say that his best cow, Violet, had given birth to a heifer calf and he wanted them to have her.

There was one condition though, he said they had paid too much for the other calves and this one would be free so they went and picked her up in the back of the car and bought her

home. Shortly after this the herd at Garliford farm was dispersed so it was a stroke of luck that they had got Violet!

At the time of writing this story, Violet 640 has been born at Hilltown and they all go back to that original Violet. There are currently 57 Violets milking on the farm. Speaking to Mark, "Violets have a very true Ayrshire type, with dark feet that rarely need trimming and are seldom lame. They have superb bone quality and mobility with amazing udders that have strong attachments and central ligaments, alongside great toplines. They have naturally high butterfat and protein content on our simple grass-based system.

The oldest cow at Hilltown is Violet 299 EX95 (7) who classified EX95 in her 10th lactation (97 points for Mobility) and will reach 80,000kgs in the next couple of months. Served once and back in calf for her 11th next March with a 370 day calving interval. When Hilltown were in the show ring the Violets had plenty of success for ourselves and other breeders who have purchased from us.

The Violet Family is extremely valued at Hilltown as high type yet robust and trouble free but with loads of pizzazz!"

Hilltown Yukon Delta will appeal to you if you want something from a proven cow family with generations of longevity in it. He carries the added bonus of the A2/A2 milk gene. He is 100% Ayrshire being a nice outcross to many of today's bloodlines and also excels

for Type. He is available to the Worldwide market in both conventional straws and Ultra plus high Purity sexed straws.

The Hammer Falls on 150 Years of Brieryside breeding

Saturday 3rd June saw one of the largest crowds ever seen at a dairy dispersal as the Lawrie family dispersed their renowned Brieryside herd of Ayrshires and blended Red & White's.

The Brieryside prefix has, over the years, become synonymous with show champions together with production awards and has provided many breed leading bulls. Breeders and commercial dairymen alike, travelled from as far as Cornwall, Norfolk and the South of Ireland to see over 420 head pass through the sale ring ending in almost 100 different buyers providing a sale total of almost £1 million.

Leading the trade was lot 370, Brieryside Hail Miss Donald, a superb served heifer, due at the end of the year and ready to show at the highest level and when the hammer finally fell she sold to James, Charles & Ninian McAlister, Isle of Bute for 8600gns.

A further three animals made over £5000 with lot 190, Brieryside Awesome Magenta VG88 selling for 5800gns to the Bailey family of Audlem, Cheshire. Brieryside Hail Wren that provided much excitement amongst breeders went on to make 5600gns joining the Edenfields herd of Mr D Coulthurst,

Preston. Another member of the superb Wren family also brought 5600gns. Brideryside Aladdin Wren made her way to A & S Lawrie, Kinross.

Lot 192 was much admired on the day and was a descendant of the great Barr Sandy Rose family. Due in July to Brieryside Hail, this lovely young cow sold for 5000gns to join the renowned Ardmore herd of Mr John Hunter & family in Northern Ireland who also secured lot 159, Brieryside Magic Swan for 4800gns.

The sale ended with an average of almost £2400 for the milking herd with almost £2200 per life across all ages, a record average and the highest grossing herd dispersal in the history of the Ayrshire breed. A truly memorable event and a day that will be regarded as one of the UK's greatest dairy sales.

Averages

284 Cows in Milk £2391.23
54 Recently Served Heifers £2461.57
22 Maiden Heifers £1596.48
63 Heifer Calves £1106.17
423 Head £2167.49

Thank you to everyone who attended the sale on Saturday 3rd June 2023 and wish buyers all the best with their purchases.

WAF CONFERENCE

Sunday 30th June

Accommodation at The Tower Hotel, Central London
Arrive in London, welcome reception and
Thames River Cruise with drinks and light snacks

Monday 1st July

2 nights accommodation at The Courtyard by Marriot, Sandy Park, Exeter
Lunch and herd visit to Biddesden by kind permission of the Guinness Family
Visit famous English heritage site, Stonehenge
Evening and dinner at your leisure

Tuesday 2nd July

Herd visit - Lyner by kind permission of the Walters family
Lunch, alternative activity and herd visit at Rosehill by kind permission of the
Christophers family
Herd visit, social evening at Bowden by kind permission of the Ashford family

Wednesday 3rd July

2 nights accommodation at The Queens Hotel, Cheltenham
Herd visit by kind permission of the Windel family, Wroughton
Afternoon and evening at your leisure to explore this beautiful traditional
english regency town

Thursday 4th July

Lunch and herd visit at Duchy by kind permission of the Gay family
Highgrove gardens tour with traditional Highgrove Afternoon Cream Tea
Evening and dinner at your leisure

Friday 5th July

3 nights accommodation at The Palace Hotel, Buxton
Lunch, alternative activity and herd visit at Hunnington by kind permission of the Window family
Industry visit to Cogent Breeding Ltd
Herd visit and evening party at Beeline by kind permission of the Bailey family

Saturday 6th July

Optional herd visits; Heydale, Bigginvale & Tessvale, by kind permission of the
Berresford and Adams's families

Sunday 7th July

Herd visit, and alternative activity – Whitecroft by kind permission of the Broadley family
Evening dinner and social night

Monday 8th July

4 nights accommodation at DoubleTree by Hilton Harrogate Majestic Hotel & Spa
Industry factory tour
Lunch and herd visit at Alkmonon by kind permission of the Harris family
Evening and dinner at your leisure to explore Harrogate

Tuesday 9th July

Full day at your leisure, visit the website for recommendations of things of interest in the local area

Wednesday 10th July

World Ayrshire Federation Board of directors meeting
World Ayrshire Federation Annual General Meeting & country presentations
Evening dinner and drinks reception

Thursday 11th July

Delegates will attend "The Great Yorkshire Show"
Afternoon reception with exhibitors

UK2024 ITINERARY

Friday 12th July

2 nights accommodation at Ibis Edinburgh Centre South Bridge
Scenic Train journey from York to Edinburgh
Evening and dinner at your leisure

Saturday 13th July

Optional herd visit with lunch at Cuthill Towers by kind permission of the Lawrie family
Early evening Scottish Happy Hour
Evening and dinner at your leisure

Sunday 14th July

2 nights accommodation in The Hilton Hotel, Glasgow
Family day with Ayrshire Young Breeders showcase Calf Show, Lanark Market
Evening and dinner at your leisure

Monday 15th July

Day at your leisure
Sale of top Ayrshire genetics
Traditional Burns Supper & Scottish Ceilidh dance

Tuesday 16th July

3 nights accommodation at The Titanic Hotel, Belfast
Lunch and herd visit at Myremill by kind permission of The Lawrie family
Travel by ferry to Belfast
Evening and dinner at your leisure

Wednesday 17th July

Morning herd visits at Cottown by kind permission of the Drummond family
and Ardmore by kind permission of the Hunter Family
Lunch and final herd visit at Ravenhill by kind permission of the Suffern family
Evening and dinner at your leisure

Thursday 18th July

Day at your leisure
Farewell Gala dinner and tour at The Titanic Museum

**TO DISCUSS YOUR REQUIREMENTS, REGISTER YOUR INTEREST AND
INTENDED ATTENDANCE**

JECT TO CHANGES

WHAT WAS IT THAT STARTED YOUR INTEREST IN AYRSHIRES?

My interest in Ayrshires started when I was around 7 or 8 years old. My parents owned a hill farm running suckler cows and breeding ewes. Our neighbouring farm milked a small herd of mixed breeds of dairy cows, and the coloured cows always caught my eye. My parents sold the hill farm in early 1982 and purchased a lower lying farm about ten miles away with a view to transitioning to dairying over the next few years where our first Ayrshire was purchased.

WHERE DOES THE ERNE PREFIX COME FROM?

The initial dairy herd was located on the shores of Lough Erne in County Fermanagh, so it seemed fitting to change our original prefix, Clareview, to Erne.

CAN YOU INFORM US OF HOW YOU OPERATE AND WHERE?

Unfortunately, we had to sell our farm in 1998, but we continued to work on leased units and sections of seasonal grazing blocks for the following 10 years or so. Family circumstances and demands at that time bought the sad realisation that this was no longer feasible or sustainable to do what we were doing so all but a few favourites were dispersed. As I still wanted to milk cows, these few favourites went to live with good friends William Henderson at Ballinahone, John Suffern at Ravenhill and Trevor Brown at Oakfield.

“You can’t beat a deep pedigree bull mother”

QUESTION TIME W

Stewart and Nyree Baxter are from Cool
We conducted an interview with Stewart
the breed led him to breed and milk

More recently, due to a change of my employment and relocation to Cookstown, in Mid Ulster, I found it difficult to keep stock so far from home, and a chance meeting with Alan and Leanne Paul of Slatabogie Holsteins has resulted in our extended herd running alongside their milking herd.

HOW MANY HEAD ARE CURRENTLY FEATURING IN YOUR HERD?

Currently 12 milking and about 40 followers including some recipients for embryos. We also have a young bull for sale! Completed or current lactation projections are averaging 9,587 kg. Classifications as follows 1 x EX 94, 1 x EX93, 2 x EX90, 1 x VG88, 2 x VG87, 3 x VG86 and 2 heifers still to be scored.

WHICH SERVICE SIRES ARE CURRENTLY BEING USED IN THE ERNE HERD?

All are bred to sexed semen. Pregnancies currently are due to Ringer, Burdette, Wind in the Willows, Reynolds, Stanley, and Ladys man.

WHICH COW FAMILIES ARE YOUR FAVOURITE WITHIN THE HERD AND WHY?

Francine (Jonholm) and Conceit (Willowfields) families are our high production cows with regular lactations of over

WITH ERNE AYRSHIRES

Stewartstown in County Tyrone, Northern Ireland.
Want to find out more on how an obsession with Ayrshires whatever the circumstances!

10,000kg, whilst the type traits of Pretty (Forever Schoon) and Opa (Faucher) have bred us some promising young cows. Recent investments from the Snowdrop (Carnell), Ruth (Morwick), and Denise (Whiteflat) families bring new opportunities.

IF YOU HAD THE OPPORTUNITY TO USE A BULL FROM ANY COW FAMILY IN THE UK, WHICH FAMILY WOULD THAT BE AND WHY?

Difficult! In an ideal world I would love the opportunity to visit as many herds as possible to see and research cow families. History has taught us that you can't beat a deep pedigree for a bull mother. That means multiple generations of excellent classifications, the ability to consistently breed good daughters, long productive lives, high volumes of milk, and above average butterfat and protein figures. I pay little or no attention to either index or genomic figures, as I prefer to see it as it is! If anyone reading this has a bull mother to suit, please let me know.

WHICH TRAITS, TYPE, HEALTH, AND PRODUCTION, DO YOU FEEL THAT THE AYRSHIRE HAS STRENGTHS TO SUIT COMMERCIAL DAIRY FARMERS AND WHY?

In my experience we have a very versatile breed. The Ayrshire cow is asked to perform and perform she will under good management and in any system! It is given that quality legs and feet are essential. Body capacity is also something we have within the breed, which contributes so much to how well a cow can perform commercially, with the ability to consume large quantities of forage and convert cost effectively into quality milk. Health traits of fertility, mastitis, and general wellness are inherently better. Labour is one of the biggest challenges for dairy farms, but I see the Ayrshire cow as having a massive commercial attraction in this regard due to their ease of management.

AS A BREEDER OF AYRSHIRES, HOW WOULD YOU LIKE TO SEE THE BREED PROGRESS IN FUTURE YEARS?

I feel we have many challenges, but as with all challenges, brings opportunity! The breed must focus on the commercial dairy farmer. If we can progress to becoming more desirable, we will all see benefit! The value of our cattle will increase, Society membership will rise, and registrations will escalate which in turn will add reliability to our breeds genetics.

I think the key to progressing the breed will be for all of us involved to identify our best cows. We are encouraged to feed information back to Breed heritage, but how many of us do?

ARE THERE ANY MEMBERSHIP SERVICES WHICH MAY BE OF BENEFIT YOU WOULD LIKE THE ACS TO ADOPT FOR ITS MEMBERS?

Services which I feel would be very beneficial are field type roles. I can site several examples where a member who was inactive or possibly disillusioned as to what direction to take with their herd or plans has been greatly assisted by someone to help them. Simple encouragement so the member feels part of the organisation and someone to advise on registrations, classifications, breeding advice, and a contact for either the purchases or sales of stock.

WHAT ADVICE WOULD YOU HAVE FOR A NEW ENTRANT INTO THE AYRSHIRE BREED?

Just reach out to existing members and breeders for advice and support. Over the years I have made many friends and asked for support and advice from many people. Ayrshire breeders we are a very friendly bunch, really!

“In my experience we have a very versatile breed.”

2017 YOUNG BREEDERS

This year's Young Breeders gathering took place in Dumfries where we had an encouraging attendance, including many new attendees from all over the country including the Isle of Man, to take part in the Hugh Stevenson and John Cochrane competitions.

Following dinner on the first evening, delegates took the opportunity to get to know each other with some fancy dress and ice breaker games.

On Friday morning we boarded the bus for the short journey to Dumfries Market where two classes of cattle were provided from the Halmyre Urr and Caerlaverock herds for the stock judging competition. Master Judge was John Watson of High Mark. There were several new participants, so John spent some time going through what to look for in a cow when judging, terminology to use, and how to confidently give reasons before letting the young breeders have a go for themselves.

It was soon time to move onto the next visit for the day, which took us to The Cowhill Trust's Bellfield herd of Ayrshires, managed by David Douglas and family. Two cows had been selected for the sire selection competition and David gave a specific brief of the breeding conditions he requires along with other breeding traits he considers when selecting his next mating. Jake Sayer and Colin Davidson were on hand to help those understand how to read the pedigrees and information provided about the cows and potential sires. The delegates were then invited to look at the rest of the herd before handing their sheets in to Jake, Colin, and judge Andy Chalmers from Genus.

Friday evening's entertainment was an ice disco at the Dumfries Ice Bowl where we witnessed some very artful skating (if you can call it that!) and of course, falls. Everyone thoroughly enjoyed the evening and left with all limbs still intact.

An early start on Saturday morning had when we departed to the Davidson Family's Halmyre Urr Herd. Competitors would spend the day clipping, washing, and preparing the calves for the afternoon's showmanship under the watchful eye of our judge, David Gray. David gave some useful tips on what he looks for when "dressing" a calf including tips on doing the topline and leaving on belly hair.

23 BREEDERS

Competitors were then allocated a calf to work with before being set just over an hour for the first clip. Throughout the morning, Colin and Jake were on hand to give tips and help those who needed it. Once time was up it was off to the wash bay! Calves were given time to dry in the sun whilst delegates enjoyed a lovely lunch before going back for the final clip. Once finished, competitors paraded the calves in front of our judge where he conducted a thorough inspection and provided each member with feedback.

The sun continued to shine for the Showmanship competition which is split into four age groups to allow competitors fair competition in their class. David Gray was again our judge for this section, where he had his work cut out to place the afternoons classes due to such a high standard of showmanship. David spent time speaking to each handler after the final placings giving reasons and feedback on a personal level which was appreciated by all. Congratulations to Hattie Hassall from Kedar who took Champion handler, closely followed by Scott Taylor in Reserve.

On Saturday evening, we held the usual dinner and awards. Family and friends from the local area and members of the Dumfries club attended to support the competitors. Society President, Andrew Broadley and last years winner, Ben Broadley was delighted to award Scott Taylor from Old Mill Ayrshires the prestigious Hugh Stevenson award for 2023. As part of the award, Scott was given the opportunity to attend the World Ayrshire Federation youth tour in Australia in September this year with the trip kindly being part funded by Breed Heritage. Scott's report on his trip follows later in this journal.

The Society extend many thanks to the Dumfries club for all their hard work before and during the weekend, along with providing club funds to help run the event. These weekends also would not be possible without the support of the sponsors and those who give up their time to help organise these important events in the Society calendar.

We are pleased to announce that the plans for the 2024 Young Breeders Weekend are well underway and we are looking forward to the Isle of Man members hosting this event for us next August. Keep an eye on the Website and Facebook for updates!

Thank you

FOR YOUR VALUED SUPPORT

Thank you to the Sponsors of the 2023 Young Breeders Weekend and Annual Conference.
Without your continued support, we would not be able to run these important events.

Thank you to all our members who also support the Society by raising money and attending events hosted.

A TRIP OF A LIFETIME!

**Hugh Stephenson Award Winner
Scott Taylor reports on his travels to
Australia**

As part of winning the Hugh Stephenson trophy I was given the opportunity to be the UK delegate on the World Ayrshire Federation Youth Tour in Australia.

cow by Ardmore Crown Napier and some Pam Ayr's Hawaiian fresh heifers to name a few.

It all started off in Melbourne, where

I met our two hosts Andrew Gray and Imogen Steiner along with some of the other delegates from around the world. We took the opportunity to head into Melbourne for a wonder round before the rest of the delegates arrived later that afternoon.

The next day was relaxed allowing us to try and get our bearings and time clocks back into sync! We visited Healesville Wildlife Sanctuary in the afternoon to see some of Australia's local wildlife including Kangaroos, Koalas and Tasmanian Devils along with many other different creatures in between! That evening we were treated to a meal by the local Ayrshire club giving us the chance to meet some of the hosts for the farm visits the next day.

The following day and a series of farm visits saw a chance to see some cows! We visited Blue Gum Park, Araluen Park, and Munden Farms. It was interesting to see all these herds which all were grazing based systems and split block calving. There were some nice daughters from Lessard Jumper, Kamouraska Bigstar and Palmyra Berkely Reagan. There were some Blue Spruce Ringer daughters just calving in and they looked promising. Munden Farms had used some daughters of sires from the UK too with a nice senior

The day after, our first visit was to Total Livestock Genetics at Camperdown where we got the opportunity to see the AI collection facility and see a bull jumped. The store was impressive with around 3 million straws of semen in one room either having been collected there or imported and distributed across Australia. We then went next door to the ST genetics lab where we saw their sexing machines in action. Next stop was Parnell Ayrshires, and the standout cows were by Sandyford Triclo and Ravenhill Enigma, before heading onto the Great Ocean Road and stopping at the 12 apostles (or maybe just the 5 that we could see). The following day took us to Boldview Farms where there were some powerful daughters of Palmyra Tristar Burdette and a neat Whitcroft Nectar heifer before heading to Adelaide Show for the remainder of the trip.

On arriving in Adelaide, we were all assigned an exhibitor to help and for the next few days, I was allocated to the Boldview team. We went straight in with a clipping competition, and these were heifers to be shown in the breed show later that week, so no pressure!

The Ayrshire was the Feature Breed meaning the entries were up with around 100 head altogether! The judging was over two days with Stuart Williams as judge. In the junior show, champion was a Cedarcut Colata's Champion daughter with a Terrace Bank Free Beer in reserve, both from Boldview. The senior show was dominated by one sire with the final 3 all being Burdette daughters with the champion and reserve again, both going to Boldview.

I'd like to thank the Society for giving me the opportunity to go on this fantastic trip, Australian Ayrshires for their hospitality and Breed Heritage for funding the flight.

Stu's judging dream come true!

National Judge Stuart Williams
reports on his travels to Australia

"BING", is not the sound I wanted to be woken up by at 2.12am by my mobile. My thought was, either a distant relative who thinks they know me has left me millions or

junior champion was Cher-bar Pardy Champion from Boldview Farms, a yearling with dairy strength, great balance super locomotion.

The following day saw the milking section put forward. As with the previous day, the intermediate section kicked off as the juniors had finished. Quality and

balance throughout every class. Locomotion is evidently key for the breeders too, as every animal put forward had super thurl placement, a great leg set depth of heel. My intermediate champion was a 3yr old, Burdette daughter from Sam Hentschke. Again, she oozed dairy character, balance and had tremendous mammary system and it was the extra dairy strength, depth through the region of the heart and overall barrel to her rear rib that she went ahead of a super stylish, youthful and fresh milking yearling from Wallis and Liebich, these young cows have a great future ahead of them.

something is wrong! I rolled over to check the screen and it read 'Royal Adelaide Show', so opened it and didn't sleep the rest of the night from pure excitement. From then on September couldn't come fast enough!

The Ayrshire Feature Show at Royal Adelaide was a major tick off the bucket list... and it definitely did not let me down. Along with Vicky, Eva and Ella we travelled to Australia for our family adventure. Following a week in Brisbane we flew to Adelaide, on arrival we met the other dairy judges who gearing up to judge the following day. As feature breed judge I had to wait another day before I started with the heifer show which added to the excitement. When accepting the judging duty I also enabled Andrew Gray to be my associate.

Andrew is a great young judge who is up and coming, we worked well together so thank you for spending your week with me.

The heifer show was large with quality throughout in every class. It soon dawned on me that South Australian Ayrshire breeders not only know how to put on a great show but consistency was evident. From top to bottom of every class, they were like peas in a pod and it was the smallest of reasons that separated my selections. The eventual

The senior section continued with the stamp I had previously seen, every animal cut from the same cloth and giving me plenty to scratch my head. It appears from the results that Burdette daughters came to the fore, with all senior champion, reserve and honourable mention sired by him. As whenever I judge balance is key and along with having the 'Best Udder' of the show Revolution Burdette Saffron from Boldview Farms took Senior and Grand Champion. She had a everything I look for in a champion, balance, dairy strength, super locomotion and a strongly attached udder that will last forever. Congratulations to all exhibitors.

Throughout my time at Royal Adelaide I also had some additional judging duties; as one of the dairy judges I was part of the judging panel for the interbreed classes, unfortunately the Ayrshires didn't come to the top but it was a spectacle to see the best individuals and pens of 5 in the ring together.

The state dairy judging contest was a keenly sort-after competition. Along with judging both the showmanship and judging competitions of the World Ayrshire Youth Tour competitors. They were an outstanding group of individuals who show unity through their love of the Ayrshire cow. Congratulations to all the participants and especially Léanne from Canada who was crowned champion. I can't go without mentioning the final competition I judged... 'Celebrity milk off'. Teams of 'celebrities' had to see how much milk they could hand milk from a cow in 5 minutes. Through all the cheating of cartons of milk and bottles of water I eventually got a winner, it was a lot of fun but more importantly got dairy cows onto television to promote milk and where it comes from.

Finally, I must the Royal Adelaide Show asking me to judge. It was both an honour and privilege to officiate at the show and great to work with my associate, Andrew. Also, thanks to the Ayrshire exhibitors in putting my name forward but furthermore supporting the show and putting on a great display of Ayrshires. You are all a credit to the

FINNISH JUDGING ASSIGNMENT

John Watson
reports on his travels to Finland

One of the highlights for me this year was being asked to judge the Finland national herds competition especially, having never been to Finland before, so I didn't know what to expect. I flew from Edinburgh on the 28th of August and arrived on the first farm by 6pm that evening. I visited 22 farms in total and was shocked at the sheer size of the country and the distances involved. We travelled west to east and then ended up in the south of the country having had four different drivers and a three-hour train journey as well.

There were eight classes to judge from calves to senior cows in milk. More than two thirds of the herds were intensively managed with large inputs of oil seed rape as most of the dairies in Finland don't allow them to use soya. I was amazed at the amount of milk some of the cows were giving, with several exceeding 13,000 litres and were looking well on it! Many of the cows were by FABA and genetics from Viking sires with some using Semex sires. However, I did see daughters of Heydale Windstar, Biddesden Hector and Rosehill Vitality. Some of the breeders were sceptical of some British genetics, but I did see a second calver, Taipoleen Sissi, a Rosehill Vitality daughter giving

51 litres. She had a tremendous udder and was placed third in her class. Another cow that really impressed me was the winner of that same class Joukolan Scarlett. She was a Pie X Yellow out of a Burdette with amazing height and width of rear udder and giving 50 litres.

My two favourite cows were from the senior cows in milk and were eventual winners of class seven and eight. The class seven winner was Ranta Omartina by Money Man ET and the winner of class eight, Shady Walnut Gold Moria ET by Remington. Two tremendous cows that really stood out to me and two cows I will remember and admire for a long time.

It was interesting to see that in most cases on Finnish dairy farms the majority of the general management and cow work was done by the female members of the family, and they certainly know their cows!

Although a very busy week with plenty miles covered, I had an unforgettable trip. I would like to thank the Society for asking me to judge and also Finnish Ayrshires for all the hospitality I received while I was there and congratulate all the breeders who took part.

Although a very busy week with plenty miles covered, I had an unforgettable trip. I would like to

Biddesden Hector Daughter In Finland

UK Delegation to USA National Ayrshire Convention

Sam Wake reports

At the end of June myself and Blaise Tomlinson were invited to the National Ayrshire Convention in Maryland, USA.

The trip was supposed to start by meeting Blaise at a services on the M1, all well and good until we realised we were both waiting at different services! The fun didn't stop there when we couldn't find the right car park at Heathrow, followed by issues with the wrong names on tickets... After an 8 hour flight we landed in Washington and were greeted by Michael Creek from Palmyra Ayrshires who was our tour guide for the 10 days.

The first day started early which was mainly due to the jet lag with a trip to Washington DC, before this we met up with Edmund Els from South Africa who was also invited as an international guest to the convention. Whilst in Washington we had a day of sight-seeing which included the Lincoln Memorial, Washington Monument and the National Museum of Natural History before sampling a beer or two in the hotel bar with Edmund.

Day two was the official start of the convention, the hotel was a hive of activity as many delegates from across the USA joined, along with many youth members who joined for competitions which included competing in a quiz bowl, Jeopardy, ambassador interviews and designing adverts.

Blaise, Edmund and I were invited to sit in on the USA Ayrshire council meeting. It was interesting to hear how they run their society and also how they have sub committees running different areas such as sales and breed promotion. We also gave an overview of the UK society and what is happening with Ayrshires in the UK, including genomics, current bulls and the World Conference.

The following day involved more meetings and a visit to the Patrick family who own the Maple Dell herd where we saw some great daughters of Palmyra Bendig Berkely and De La Plaine Vicking. We then went to Annapolis for a boat ride to the lighthouse and have lunch. That evening there was a banquet dinner which included an awards ceremony and a live preview at the lots that were selling in the Convention sale.

The next day of the convention was more meetings and then the National Convention sale in the evening, they had put together a great line up of cattle that were prepared by Junior members who looked after the clipping, feeding, washing and leading of the lots. The top price was for \$10,000 for a pick of either a

Bolsonaro or Wicked calf out of Margot Precious. The sale averaged \$4,669.82.

The last day of the convention included a classification workshop, a brewery tour and then a wrap up party at Steel Farm which included great food, some fancy heifers, and more beer. After the convention had ended Blaise, Edmund and I were taken on tour across Maryland and New York state to look at some great Ayrshire herds which included the following:

- Peter Vail's herd housed at Dale and Deanna Bendig's Spun-Gold Farm
- Barrens View the Baumgartner Family
- Conebella the Gable Family
- S&M Ayr Farm the Mike Zook Family
- Jackson Hill Farm the Atherton Family
- Heineman Farm Angela Heineman Fuller and Family
- Locust Spring the Bogardus Family
- Sunny Acres Farm the Evans Family
- Palmyra Farm the Shank and Creek Families

It was great to see so many different systems which included tie stalls, free stalls and grazing systems. We travelled a lot of miles but it was well worth it as the standard of cattle that we saw was exceptional. It was also very refreshing to talk with the host farms about bulls that the UK can offer them, since this visit Cattle Services have sent another shipment of straws over.

It would be too hard to list every cow but the highlight sires in the calf and heifer pens would be the Palmyra Lochinvar Reynolds calves with milking Palmyra Berkely Reagans and Palmyra Tri-star Burdette's impressing the most in the cows.

I'd like to thank Mary and Michael Creek for hosting us both on this tour and Becky Payne and all the American Ayrshire breeders both on farms and at the convention for making us feel so welcome. If you want to see some fantastic Ayrshire cows and meet some great people, the USA should definitely be on your bucket list!

National Ayrshire Show 2023

held at UK Dairy Day

Colin Christophers

What a great display of Ayrshires on show at this year's National Show which was held in September at UK Dairy Day in Telford. Breeders travelled from all over the UK to exhibit and support the breed. Once again, the society were lucky enough to offer members the service of the Young Breeders to look after their cows. This year's judge was Colin Christophers from the Rosehill herd.

honorable mention heifer champion was Morwick Peggy 126 who won first place in the senior heifer class from GG Baynes & Stuart Mullen and was on top form for the National show having been calved since January. Colins reasons mentioned her tremendous scope, depth of rib and ligament in her rear udder that gave the advantage over Wroughton Nina 23 from the McCreadie family that stood in second in this class.

The National Show began with the junior heifers. Allstar Ringer Joybell took top honors in her class before going on to take Heifer Champion. Judge, Colin, commented on how he admired her power, strength, and length and then second place and reserve Heifer Champion went to Longwood Willow Sandy Rose who showed strength with balance through her mammary system. The

Champion Ayrshire; Allstar Ringer Joybell

The standard across the rest of the show didn't make the job any easier for Colin. Six very strong junior cows were forward, and it was Brierside Magic Patsy from JC & AM Sayer who came out on top for her balance throughout, but it was her mammary system that stood out to Colin for her ligament in her rear udder and veination in her fore-udder which took her over Mid

Reserve Champion Ayrshire; Hunnington Wren 7

Ascog Patricia 3 in a very close second place.

In the intermediate cow class, it was Willowfields Famous Clover from L H Batty that stood top of the class of nine animals. Her style, balance and levelness through her top line gave her the advantage over Bigginvale Black Cherry 20 from R T & J I Adams in Second place. Colin said he admired her long, dairy body with tremendous scope.

The senior cow class saw six powerful cows enter the ring. Hunnington Wren 7 from L & C Window took first place for her quality, movement and style on parade which gave her the advantage over Hilltower Modern Marcy from A & S Lawrie, a real dairy cow with a great body and mammary capacity. There were two classes for the Society's Red and White section. This year's heifer class was won by Cuthill Towers Rager Miss Blondie. Stevensons Buntly 178 was back again this year, and she won the cow class and went on to take the Red & White Hybrid Champion.

Before the championship, the final class of the day was the exhibitors' group of three. The five groups forward were positioned around the ring to give spectators and the Judge the best view of all the groups. It was the group of three from Longwood Ayrshires that were tapped out as winners and received the Gordon Timbrell memorial trophy. Harperfield closely followed in second place.

The championship line-up was a credit to the Ayrshire breed exhibitors' efforts and success throughout the day. Colin selected his heifer champion Allstar Ringer Joybell from Evie Tomlinson as his Overall Champion with Hunnington Wren 7 in reserve followed by Willowfield Famous Clover as honorable mention.

Society would like to again thank our dedicated Young Breeders team who gave up their time to spend four hectic days at the show and thank the breeders that sent cows for them to look after. The team are a credit to the breed and

All Breeds CALF SH

Exhibitors travelled from up and down the country to the new venue at Stoneleigh Park for this years All Breed All Britain Calf Show. Entries topped the previous years with 47 Ayrshires forward.

Saturday welcomed handlers to the ring with over 100 entries from all colour breeds putting on a tremendous display on for judge Izzy Laird from Blythbridge Holsteins, Scotland. Izzy is originally from Staffordshire where her family have a herd of pedigree Jerseys under the prefix Fourcrosses.

The youngest Ayrshire handlers that took to the ring were an admirable 7 years old and set the standard for the day. It was George Seaton, Isla Davidson, Ruth Allison, Freddie Etteridge, Annabelle Tomlinson, Fraser Sloan, Max Bryson, Kirsten Sloan, Zoe Walters, Craig Hodge, Melissa Fletcher and Jake Sayer that took the top Ayrshire places in some very tough classes. In the championship, it was Zoe Walters that took Champion Ayrshire handler followed by Annabelle Tomlinson in reserve and Gerge Seaton taking Honourable mention.

Peter Berresford from the Heydale herd was judge on the Sunday with five strong classes for Ayrshires forward to give Peter the challenge of placing them.

The first class of the day was the youngest calves and it was George Seaton in the lime light again as he lead Beeline Reagan Ladybird from the Bailey family to the top of the class followed by Wigboro Wick Hail Poker from John Smith.

cogent™

All Britain Calf Show 2023

Class two of the day saw five very strong calves forward, but it was Rosehill Fantasy Magenta from the Christophers family that stood out for Peter with Greenway Platinum Jubilee from Les and Tracy Rockett in second.

The next class was the biggest of the day with 14 calves on display. Brieryside Hail Pauline 5 was bought earlier in the year by the Young family at West Spittal and took first place in her class. Gwynnog Hawaiian Linnet 2 from G R Thomas closely followed her at the top of the line.

Another big class followed with 13 calves forward. Sandyford Ringer Mayflower 2 from Evie Tomlinson lead the class followed by Swaites Spotty 11, a Brieryside Hail daughter from the Adamson family.

The final class of the day was a superb display of mature calves and after much deliberation, Peter tapped Gwynnog Bigtime Eunice out in first place from Zoe Walter very closely followed by Cuthill Towers Gusty Mandy from J C & A M Sayer.

With a massive crowd of supporters around the ring, and a tremendous line up of 10 calves, Peter went on to crown Brieryside Hail Pauline 5 the Champion, Sandyford Ringer Mayflower 2 took Reserve and Beeline Reagan Ladybird was Honourable mention.

The All Breeds All Britain calf show is an event which focuses on the youth of the breed and seeing the standard of both calves and handlers across this year's event guarantees the future of the Ayrshire cow is in reliable hands.

Balmoral Show

Judge – Blaise Tomlinson

For the first year since Covid, Balmoral Show was able to return to its usual date and was well supported by Ayrshire breeders putting on a great display.

Champion of the day was from the second calver class, Beechmount Russet 9 VG89, sired by Brieryside Magic from R & C McConnell with the Reserve champion coming from the Keenan family with Threemile Bella Elegant who also won the senior cow in milk class.

Champion Beechmount Russet 9

SUMMER S

Royal Bath & West Show

Judge – Mike Deakins

Though down on numbers, the quality of the Ayrshires on display didn't disappoint the judge for the day with triumph for Greenway Ross Great Jubilee from L & T Rockett as she won the senior cow class before taking Ayrshire champion followed by Supreme Interbreed champion.

Success for the Rockett family didn't stop there as they also won the heifer in milk class with Greenway Windstar Cara who was also Reserve Ayrshire champion followed by Creech Hill Nickle Lassie in honourable mention.

Royal Cornwall Show

Judge – Alan Timbrell

This years Royal Cornwall welcomed a great number of exhibitors to show in the glorious June sun.

Champion and Reserve both came from the Christophers Rosehill herd with Rosehill Premier Verylight EX95 taking top honors for the Ayrshires, she also won the 35,000Kgs and senior cow classes. Rosehill Panache Whisky won the heifer in milk class before taking Reserve champion followed by Rockweir Amazing Snowball from Beth Murch in honourable mention after winning the Junior cow class.

Royal Highland Show

Judge – Iain McLean

Despite the rain, Ayrshires were on top form at this year's Royal Highland show with several breeders getting mentions in the Interbreed classes.

Champion for the day was Cuthill Towers Religious Bunt from A & S Lawrie, she won her second calver class before going on to take Honourable mention in the Interbreed. Reserve Ayrshire came from John Adamson with Swaites Bracken 19 followed by Cuthill Towers Rocco Senga, in honourable Mention. She also took Honourable mention in the Junior interbreed.

Other Interbreed success came in the Group of three which was won by the Lindsay family from Harperfield. Ayrshires also took Interbreed Group of Four with a combined team from Swaites, Cuthill Towers and Old Mill.

HOWS 2023

Great Yorkshire Show

Judge – Robin Templeton

The show was once again well supported, and the sun brought out many spectators.

It was Harperfield Irene 53 from the Lindsay Family that took Breed Champion after winning the Senior cow in milk class. Mid Ascog Patricia 3 is no stranger to the show ring and added another championship title to her name by taking Reserve.

Royal Welsh Show

Judge – John Watson

Although a small display of Ayrshires, the quality throughout entries was admirable. The champion was Allstar Provider Honesty from E B Tomlinson, who also won the Cow in Milk having had four or more calves. Reserve again from E B Tomlinson was Sandyford Clolord Donella, winner of the second or third calver class.

South West Dairy Show

Judge – Stuart Williams

Despite being down in numbers from last year, Stuart Williams had a busy day working his way through the classes. His champion was Rosehill Madison Jelly from the Christophers family who also won the intermediate class. Reserve champion was again from Rosehill with Rosehill Premier Verylight, the winner of the Senior cow class.

Got News!

If you have any news on your pedigree herd, awards or family achievements your readers would love to know!

Club News

Ulster

Antrim Show, at the end of July, always attracts a large entry of Ayrshire Cattle, and this year was no exception. A large and quality entry came under the watchful eye of David Christophers from Cornwall, who chose Robert & Caroline McConnell's second calver Beechmount Russett 9 as Champion. Alan Irwin was Reserve Champion with his heifer in milk, Rhos Beaumont Ovid and Honourable Mention going to John and Michael Hunter with Knowe Favourite Beauty. To cap off an already successful day, Beechmount Russett 9 went on to be Reserve Interbreed Champion.

The next big event on our calendar was our Annual Herds Competition. We were very grateful to Linda Batty, Jo Billings and master judge young Ernie for giving up their time to spend three days judging the various herds around the Province. Our Chairman, Richard Emerson and vice Chairman Raymond Stewart shared the driving and certainly covered some miles!!

Thomas Gordon and his family kindly hosted our stock judging and results evening, and we were warmly welcomed and well entertained. The weather was inclement to put it mildly, but a good turnout of members and friends enjoyed a delicious supper and a good nights craic. Thanks to Thomas, Sharon, Katie, Andrew and Matthew. Thanks must also go to our sponsors Danske Bank, Al Services, Moores Feeds and Dale Farm.

The overall champion herd was The Ravenhill Herd from John and Caroline Suffern who were enjoying another win in this hard fought competition. The small herd champion was John Ferguson with his Loughshore Herd. This is John's first time entering the competition so it was a great achievement - no excuses for not entering again!! Well done to the Champion and Reserve and all class winners and entrants, it was a stiff competition.

The annual NI All Breed Dairy Calf Show was held at the Eikon Centre, Logan Hall at Balmoral Park for the first time and this new venue proved a great success. Andrew Rimmer from the Holmeswood Herd in Cheshire was our breed judge and was kept busy.

As his Champion he selected Robert and Caroline McConnell's Beechmount Laura, the September class winner (who notably is the first show calf by Beechmount Magic Mike), with Reserve Champion coming from the May class, Isaac Moore's Holmeswood Saquenay Clover and Honourable Mention Beechmount Bertha, Robert and Caroline McConnells January class winner.

The young Wylie brothers James and Bobby (11 and 7 respectively) had a great day with both winning their handling classes and James chosen as Champion with Katie Gordon, senior class winner as Reserve and Amy King Honourable Mention. Well done to all our young breeders, a great future awaits and it is encouraging for the breed.

We are very grateful to our sponsors United Feeds, Farm Wardrobe, OB Construction and AHV, without whom these events cannot run.

Our Club meetings are due to resume in October and then all roads will lead to the Winter Fair!

Congratulations to Peter and Laura Drummond who have welcomed a baby boy, a brother for William and James, we wish them all the best.

Club News

Cumberland

The clubs Herd Competition was held in August, the judge was Robert McConnell from the Beechmount Herd. An enjoyable 2 days were spent travelling around judging animals from 7 herds in The Cumberland Club.

Kintyre

Kintyre Ayrshire breeders club held their annual herds competition on Friday 25th of August. Favourable weather saw stock from the four competing herds shown at their best with a good following of interested spectators. Master judge for the day was Mr Tommy Ralston. Dinner and prize giving was held that night in the Royal Hotel Campbeltown with the results as follows:

Large Herds

- 1st J&M Barr, Clochkeil
- 2nd Thos M Ralston and sons, East Drumlemble

Small herds

- 1st Thomas Cameron, Gartvaigh
- 2nd John Barbour and co, Machribeg

Overall herd

- J&M Barr, Clochkeil

Individual cow

- 1st J&M Barr, Clochkeil.
- 2nd Thos M Ralston and sons, East Drumlemble

Club News

Devon

After the difficulties of the last few covid years, the Devon club finally met back in the early part of the Summer a lunch to announce the winners of the 2019 herd competition, yes, that was how far behind we were!

A much simplified herd competition was held in early September kindly judged by Rodney Armstrong with Annabell playing the perfect secretary to him. A great three days were had culminating in another lunch where the results and prize giving took place. We had 12 entrants which was extremely encouraging.

Full results in next journal but Robert Cornish won best herd and Chris Creeper best cow with the amazing Gargus Jemima 3. It was lovely to see some young members involved including Marcus Walters who has relatively recently moved to Devon, a keen Ayrshire man, Emily Ashford who has taken on Russell Ashford's well known Bowden herd and last but not least, 8 year old Oliver Tratt who is a very keen young up and coming stockman. He was awarded the East Church silver salver for his efforts clipping and training his Ayrshire calf.

It was good to welcome James Legg into the competition and Ollie Reed, and finally, the Murch girls from Umberleigh who shine through with their professionalism. It was also good to see our former President Ruby Tristram looking well at 93 years of age and our current president Libby Marnham.

We are planning a Christmas get together and a young breeders day in the spring. Robert Cornish is our new President and Mark Evans is secretary.

LP100 COWS

awarded between 1st March and 29th September 2023

RAVENHILL TULIP 85 EX92 8E LP100 1 STAR – John Suffern

Tulip 85 is the 4th successive generation of star brood cows and the tenth generation EX/VG, which is testament to this tremendous family at Ravenhill. Sired by Ardrossen EV Kate's Trident and out of the Torpane daughter, Ravenhill Tulip 11 EX90 LP80 5 Stars, Tulip 85 has achieved her LP100 award in her 10th lactation producing averages of over 4.5% butterfat and over 3.5% Protein. Five registered daughters and two registered sons will ensure the strong attributes of this family continue.

BEELINE STAR CRUMMIE EX94 5E LP100 1 STAR – SN Bailey & Partners

This great productive cow is sired by Hunnington Kellogg Star and has achieved her LP100 status in her 11th lactation producing up to 11,668 kgs with over 800 kgs of milk solids. She has produced an impressive 10 daughters with three of them in the top grades and four still to enter the herd, which also gives her a brood cow award. The fertility on Star Crummie must be admired, calving in every year, and has gained a month from her first calving with her 11th calf.

CUTHILL TOWERS CROWN RAY EX96 7E LP100 6 STARS – A & S Lawrie

This former National Ayrshire show champion has been awarded her LP100 in her 9th lactation producing yields up to 13,286 kgs. Only her 1st lactation was under 10,000 kgs! She is sired by Ardmore Crown Napier and has produced numerous progeny with seven scored Excellent and four scored Very Good. This has helped her achieve a 6-star brood cow status so far, which will be sure to increase further soon.

CARNELL SNOWDROP 258 EX94 7E LP100 – GG Baynes & Son

A daughter of the great Carnell Snowdrop 185 EX92 5E LP60 9 Star brood cow, and full sister to another LP100 1 Star brood cow Carnell Snowdrop 242 EX92 6E, Snowdrop 258 is sired by Lagace Modem. She has consistently produced high yields through to the end of her 10th lactation. She herself has already produced a daughter by Carnell Warrior who has also gained a star brood cow award. Snowdrop 258 now resides at Marleycote and is on a flush programme to enhance this great family further under a new prefix.

KIRKINRIOLA SPW JOY VG85 LP100 – R & M King

If there were to be a prime example for superb fertility in the Ayrshire breed, then SPW Joy must be just that! She produced her first calf at 1yr 11 months and then her 11th calving at 12yrs old! She is sired by Stamford Prize Winner and out of the Brocklehill Buccaneer daughter Kirkinriola BB Joy. She has produced 6 registered daughters, 2 x Excellent, 1 x Very Good, 2 x Good Plus and has a Biddesden Hector daughter still to enter the herd.

SANDERSFARMS NEVE THISTLE EX91 4E LP100 – Sanders Farms Ltd

Neve Thistle has achieved her LP100 award in her 10th lactation and she is sired by the Swedish sire, B Jurist. Again, we see a consistent producer who exceeded 100,000 kgs in her 10th lactation. She has 3 registered daughters including a VG85 daughter sired by Pell Pers.

MUIRSIDE ANNE 5 LP100 – Muirside Farms

Muirside Anne 5 is registered in the Red and White section of the herd book and has claimed her LP100 award in her 10th lactation. She has been a consistent performer throughout her lifetime with all but one lactations producing an admirable production of over 10,000 kgs. She is sired by Durham Red and has 3 registered daughters.
